Profile

Creative and detail-oriented Frontend Developer with 2+ years' experience designing and building responsive, user-focused applications using React, Tailwind CSS, and Laravel. Skilled in full-stack development, UI/UX best practices, and data visualization. Experienced in collaborating with clients and teams to deliver business-driven solutions across education, e-commerce, and logistics. Currently expanding into Data Science and Analytics to enhance decision-making through data-driven insights.

Technical Skills

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Flowbite, Chart.js, FullCalendar.js
Backend/Frameworks: Laravel (PHP), REST APIs, Supabase
Databases & Tools: MySQL, Git/GitHub, VS Code, Cloudinary
Other: Responsive Design, UI/UX Best Practices, Data Visualization

Professional Experience:

Frontend Developer – SmakkTechnologies, Ghana (2022 – Present)

• Leading frontend development for Edu Schola, a comprehensive school management system.

• Designed a modern dashboard interface with responsive statistics, charts, and user profile pages.

• Integrated dynamic calendars, modals, and interactive charts to improve usability.

• Implemented mobile-first, accessible UI components using Laravel, Tailwind CSS and Flowbite.

Full-Stack Developer (Contract) – Gluto International (2025)

• Developed a full-stack application (admin + user sections) to automate the buying and selling process.

• Built secure authentication, product management, and order workflows using MERN stack.

• Enhanced user experience with real-time updates and responsive design.

Freelance Frontend Developer (Multiple Clients) (2024 – 2025)

• Designed and deployed e-commerce and shipping websites including Trans-Sib Shipping, Embex Shipping, Yota Shipping and other logistics platforms.

• Delivered custom admin dashboards, product catalogs, and dynamic category management systems.

• Built numerous landing pages, interactive dashboards, and lightweight applications for small businesses.

Education

Higher National Diploma (HND), Software Engineering – NIIT, Lagos

Diploma, Data Science (Ongoing) – ALX, Africa Leadership Group

Certifications

• ALX – Professional Foundations

• ALX – Data Analytics

• FreeCodeCamp – Responsive Web Design

• FreeCodeCamp – JavaScript Algorithms & Data Structures

Strengths

• Strong problem-solving skills and adaptability across projects.

• Proven ability to manage full project lifecycle (concept → deployment).

• Passion for creating scalable, user-friendly applications.

• Continuous learner in frontend, full-stack, and data-driven development.
